21 September 1949

- 25X1 1. The STRALSUND-PAROW (N 55/2 44) airfield was not occupied by
 25X1 Soviet Air Force units. The dismantling of the airfield
 25X1 installations continued. Special details were salvaging
 25X1 building material for the STRALSUND "People's Shipyard".
 Pipes and cables were dug out. Part of the landing field was
 25X1 ploughed, the remainder strewn with debris and unserviceable.

Early September 1949

3. The landing field of the STRALSUND-PAROW airfield was partly
 under cultivation and partly demolished. Four intact kaserne
 blocks south of the landing field were occupied by German
 civilians.

4. Early October 1949

The condition of the airfield had not changed.

25X1 Comment:

- 25X1 The report fully confirms the condition of the airfield as
 25X1 reported during previous months. The field is not thought
 25X1 to be serviceable for air units in the near future. The con-
 tinued dismantling work indicates that the airfield is not
 intended to be put in operation.
